

2019 QUAD, LIGHT UTILITY VEHICLE, AND 4WD TRAINING PROGRAMMES.

Why do the courses?

TR Master Drive Services is New Zealand's only driver training company that can deliver measurable improvements in safety, efficiency, and compliance.

Our Quad, Light Utility Vehicle, and 4WD Training Programmes will give you an overall better understanding on how to operate these vehicles. Let our highly skilled and experienced driver instructors help you improve your theoretical knowledge and practical skills on operating Quad bikes, LUVs, and 4WDs.

All rural courses are run in association with our training partner, Natural Instincts

Quad Training Programme

25-26 June

\$525 p/p
+GST

2-Day Unit Standard Course Based at Ngongotaha

- Our Quad Training Programme gives Quad bike riders the suitable skill set and knowledge to operate Quad bikes in a safe and compliant manner. This includes everything you need to learn about health and safety, preparing the vehicles, riding on different environments, water crossing, and more.
- You can use your own vehicles or use our vehicles.
- **Quad Unit Standard**
24557 Theory Unit
24554 Flat Terrain
24559 Hilly Terrain
24563 With a Load
24561 Trailed Equipment

Light Utility Vehicle

25-26 June

\$525 p/p
+GST

2-Day Unit Standard Course Based at Ngongotaha

- Light Utility Vehicle drivers need to be equipped with the appropriate skill set and theoretical knowledge to operate LUVs safely and compliantly.
- TR Master Drive Services has expert driver trainers who will teach you the suitable ways to operate Light Utility Vehicles under various conditions such as driving with passengers, vehicle checks, stability dynamics, and more, while simultaneously complying with all health and safety regulations required to operate LUVs.
- You can use your own vehicles or use our vehicles.
- **LUV Unit Standard**
24560 Trailed Equipment
24562 With Load
24553 Flat Terrain
24556 Theory Unit
24558 Hilly Terrain

Four Wheel Drive

25-26 June

\$525 p/p
+GST

2-Day Unit Standard Course Based at Kamai

- 4WD vehicles cannot be operated like average everyday vehicles. This simply means that operators need to possess a higher level of skill and knowledge to operate 4WD vehicles safely, compliantly.
- TR Master Drive Services' Four-Wheel Drive course is designed to equip drivers with the theoretical knowledge and practical skills in operating 4WD vehicles over varied terrain safely and compliantly. This also includes learning the appropriate driving techniques that lessen negative environmental impact.
- You can use your own vehicles or use our vehicles.
- **4WD Unit Standard**
17678 Unsealed Roads
17976 Theory Unit
17978 Off-road Practical
